Non Vacuum Blood Collection Tubes

- Virtually unbreakable tubes; made from medical grade plastic.
- Accurate spraying of additives is ensured via fully automated spraying technology.
- The butyl rubber stopper perfectly matches with the safety cap, so no separation occurs between stopper and cap during de-capping.
- Accurate volume marking in each tube ensures proper additive to blood ratio.
- Color coded caps used according to ISO 6710 international color coding standard.

Products

Additive	Volume	Cap Color	Cap Type
